

# OVERCOMING DATA CHALLENGES TO ACCELERATE AI

December 10, 2024

AWS Premises, Bangalore & Virtual Participation

[www.newtglobal.com](http://www.newtglobal.com)

# How to Overcome the Challenges of Disparate Data Sources and Data Governance to Accelerate AI Initiatives

## AGENDA

In today's data-driven world, organizations are rapidly adopting AI to stay competitive, but often face barriers related to disparate data sources and complex data governance.

Join us to explore innovative solutions to these challenges and learn from industry leaders who are pioneering successful AI initiatives.

Speakers &  
Panel lists

Industry Experts &  
Leader from

Enterprise speakers with  
specific Use Cases Featuring  
industry leaders and experts  
sharing firsthand insights on  
tackling data and AI challenges  
in the digital era.

# Key Discussion Topics

Unlocking AI Potential Amidst  
Disparate Data Sources

Data Governance and Quality as  
Catalysts (or Hindrances) for AI Success

Overcoming Governance and  
Quality Hurdles

Tackling Data Challenges in  
AI Transformation

## Event Highlights

Insightful keynote sessions and  
Interactive panel discussions  
with industry pioneers

Networking opportunities with  
like-minded professionals
